13 On-Chip Debug

This chapter describes the on-chip debug support.

Note

This chapter is under development and is included as a placeholder for future updates.

14 Revision History

NOTE: Page numbers for previous revisions may differ from page numbers in the current version.

Changes from November 11, 2022 to June 15, 2023 (from Revision B (November 2022) to Revision C (June 2023)) **Page**

- Updated Note in Introduction....3
- Updated the references of Multi-Standard HD Video Encoder / Decoder to Video Accelerator.... 11
- Added Firewalls tables to Peripheral Firewalls (FW).... 110
- Updated CTRL_MMR Overview section....362
- Updated Overview of Common Power Management diagram.... 365
- Updated PSC0 Power Management Device Level Layout and WKUP-PSC0 Power Management Device Level Layout tables....365
- Updated Power Management Subsystems section....370
- Added POK, PRG_PP, and POR Modules section....370
- Updated Power OK (POK) Modules section....370
- Added POK Modules and Monitored Voltages and POK_SA Programmable Features tables.... 370
- Updated PRG / PRG_PP Overview section.... 375
- Updated POR Overview section....377
- Updated Timing section.... 377
- Updated PRG_PP Programming Flow.... 379
- Added Power Glitch Detect (PGD) Modules section.... 380
- Updated VTM Overview section....381
- Updated VTM Functional Description section.... 382
- Removed VTM VID Voltage Domains, VTM Clocking, and VTM Retention Interface sections....382
- Updated VTM Temperature Driven Alerts and Interrupts section....385
- Updated VTM Maximum Temperature Outrange Alert section....386
- Removed Temperature Monitor during Low Power Modes section....386
- Updated Sensors Programming Sequences section....386
- Updated AVS Support section....388
- Removed Thermal Management section....388
- Removed Note from Clocking section....408
- Replaced LFOSC with WKUP_LF_CLKIN in Clock Mapping table.... 411
- Updated Clock Mapping table....411
- Updated Overview section....461
- Updated Mapping for Input Sources table....461
- Updated Clock Outputs section....462
- Updated MCU_OBSCLK0_MUX1 Output Clock Selection table....462
- Updated OBSCLK0, OBSCLK1, and OBSCLK2 Clock Selection table....463
- Updated Device Oscillators section....465
- Updated Oscillators with External Crystal section....465
- Updated Internal RC Oscillator section.... 466
- Updated MAIN Domain PLLs Integration - Part 2 diagram....469
- Updated PLLs in MAIN Domain section.... 473
- Updated Generic PLL Overview section....473
- Updated PLLs Output Clocks Parameters section.... 473
- Updated PLLs Input Clocks section....474
- Removed PLLTS16FFCLVDESKEWC Type Output Clocks section.... 474
- Removed PLL Lock Signal Summary table....475

Copyright © 2023 Texas Instruments Incorporated

- Updated PLLTS16FFCLAFRACF2 and HSDIV Connection diagram....475
- Updated PLL Power Down section....476
- Updated PLL Calibration section....476
- Added Note....477
- Updated SSMOD related bitfields table....478
- Updated PLL and SSMOD Connection diagram....478
- Updated Basic Information of MAIN Domain PLLs table....480
- Updated System Clocks Operating Frequency Range table....484
- Updated PLL Initialization to PLL Mode section....486
- Updated PLL Programming Requirements section....486
- Updated PLL Calibration Procedure section....486
- Removed HSDIV PLL Programming and PLL Controllers Programming - Dividers PLLDIVn and GO Operation sections....486
- Updated Programming Sequence of PLLCTRL, HSDIV, and PLL table....487
- Added ADC Reference Integration section to ADC Integration Details....488
- Added GPIO Multiplexing information to GPIO Integration Details section. 504
- Added RAT Module Integration section....516
- Added CAC Functional Block Diagram....655
- Updated RAT Error Logging section....852
- Added NAVSS0 Top-Level Block Diagram....1145
- Updated ADC I/O Signals table....1261
- Added AFE Functional Block Diagram....1267
- Updated GPIO Overview section....1270
- Added HS Mode entry to Features section....1277
- Removed HS Mode footnote from I2C Register Values for Maximum I2C Bit Rates in I2C F/S, I2C HS Modes table....1280
- Added I3C Block Diagram....1300
- Added PCIe Subsystem Overview diagram....1399
- Added LTSSM State Encoding section....1431
- Updated LTSSM State Encoding table....1431
- Updated USB3SS0 Input/Output Description and USB3SS1 Input/Output Description tables....1435
- Updated PMA bullets in SerDes Features section....1439
- Added FSS Overview diagram....1449
- Added MCASP Module Block Diagram....1807
- Added CSI_RX_IF Block Diagram....2045
- Added RTI Not Supported Features section....2095
- Updated Properties of ECC Aggregator Instance ECC_AGGR10 and Properties of ECC Aggregator Instance ECC_AGGR11 tables....2158
- Updated Properties of ECC Aggregator Instance WKUP_SMS0_HSM_ECC_AGGR_0 and Properties of ECC Aggregator Instance WKUP_SMS0_TIFS_ECC_AGGR_0 tables....2158
